The Islamia University of Bahawalpur ranked on number 25 among 53 Pakistani university. In the ranking for year 2020, almost one thousand universities from 84 countries participated. The Islamia University has shown excellent performance and scored significantly in some areas, including Infrastructure, Transportation, Education and Research and Energy and Climate

Rank 2020	University	Country	Total Score	Setting & Infrastructure	Energy & Climate Change	Waste	Water	Transportation	Education & Research
642	Islamia University of Bahawalpur	Pakistan	4350	900	675	525	450	1050	750

Change. Vice Chancellor Engr. Prof. Dr. Athar Mahboob congratulated all the academic and administrative staff of the university, and appreciated the efforts of Quality Enhancement Cell, in collection as well as submission of data for this international ranking. Prof. Dr. Saeed Ahmad Buzdar, Director QEC has said that university has started

a new journey under the leadership of Engr. Prof. Dr. Athar Mahboob, and university is rapidly getting global reputation and competing with the universities around the globe, The UI Greenmetric world university ranking collect the data regarding the current condition and policies related to Green Campus and Sustainability

in the Universities all over the world. This ranking is particularly focused to combating global climate change, energy and water conservation, waste recycling, and green transportation. The Islamia University of Bahawalpur is doing efforts to implement environmental friendly and sustainable policies and programs.

International Anti-Corruption Day

The Islamia University of Bahawalpur in collaboration with Higher Education Commission,

Higher Education Department, Government of Punjab and the National Accountability Bureau

(NAB) organized anti-corruption events online in compliance with Covid-19 safety measures. In

this connection, a ceremony was held at the Baghdad ul Jadeed campus. On this occasion, Engr.

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor and Muhammad Javed Khan Daultazai distributing certificates among position holder students

Prof. Dr. Athar Mahboob, Vice Chancellor and Muhammad Javed Khan Daultazai, Chairman, Chief Minister's Complaints Cell, District Bahawalpur presented certificates to the students. Focal Person Dr. Abdul Wajid Khan elaborated on the Urdu and English essay, poetry,

painting and poster competitions organized by Islamia University Bahawalpur. In English essay writing competition, Sidra Safdar won first position while Mohammad Shehzad won second position. Similarly, in Urdu essay writing competition, Tariq Aziz won first and Umar

Khan second while Muhammad Ayub won third position. In poetry competition held at Islamia University of Bahawalpur, Tariq Aziz won first and Umar Khan won second position. In the painting competitions, Hafsa Shehab won first, Amna Khan second and Mustafa

Zahid third position. In the poster competition, Muhammad Usman won first, Mawra Munawar second and Zeenat Mohsin third. Dr. Azhar Hussain Advisor Character Building Society informed about various events held during week long anti-corruption day celebrations.

Inauguration of Four New Buses

Commissioner Bahawalpur, Captain (R) Zafar Iqbal along with Vice Chancellor, Engr. Prof. Dr. Athar Mahboob inaugurated four new buses at the Islamia University of Bahawalpur. Senior faculty members, officers, deans and a large number of students were present on this occasion. Commissioner Bahawalpur said that the Islamia University of Bahawalpur is a historical and major university of the region and under the leadership of Prof. Dr. Athar Mahboob, Vice Chancellor, the university is developing on a very fast pace. Much attention is being paid to the quality of education in the university and the university holds a prominent position nationally and globally. He said that increasing the number of students from 13,000 to 37,000 and doubling the number of faculty was

a great achievement which would prove to be a milestone in the field of higher education in the region. Commissioner Bahawalpur said that Islamia University Bahawalpur already has 58 buses which are providing services to students in all the campuses and now the addition of four buses will further improve the performance of the transport fleet. On this occasion, Vice Chancellor Engr. Prof. Dr. Athar Mahboob said that university transport fleet is not only providing transport facilities to students from Bahawalpur, Rahim Yar Khan, Bahawalnagar city but now these facilities have been increased for the students of Lodhran, Yazman, Ahmadpur East, Khanqah Sharif, Khairpur Tamiwali and Lal Sohanra and the students are being provided with comfortable and quality travel facility. Commissioner Bahawalpur

Commissioner Bahawalpur Captain (R) Zafar Iqbal along with Vice Chancellor Engr. Prof. Dr. Athar Mahboob inaugurating the new buses

highly appreciated the increase in travel facilities for male and female students and said that thanks to university transport, teachers, students and employees reach the university campuses on time and return to their homes,

especially for nearby cities, a great facility. On the occasion, Principal Transport Officer Prof. Dr. Muhammad Hussain Tahir gave a briefing on University Transport Service and bus routes.

IUB Launches Scholarships Schemes for Students

The Islamia University of Bahawalpur is one of the first university in the country where thousands of students are benefiting from various scholarship schemes given by the federal and provincial governments. Under the Prime Minister's Ehsas Scholarship Program, more than 2,100 students are receiving scholarships worth Rs 192 Million. Similarly, thousands of students are benefiting from higher education need based and provincial government's PEEF scholarships. This was stated by Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, the Islamia University of Bahawalpur while presiding over a review meeting on scholarships for students. The meeting was attended by Director Information Bahawalpur Riaz-ul-Haq Bhatti, Chairman Admission Committee Prof. Dr. Jawad Iqbal, President Press Club Bahawalpur Naseer Ahmed Nasir, Secretary General Press Club Riaz Ahmed Baloch, Director Financial Assistance Dr. Ghulam Hassan Abbasi, Director IT, Rizwan Majeed, Director Academic, Dr. Makshoof Ahmed and Director Press Media and Publications

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor presiding over the review meeting of scholarships

Shahzad Ahmed Khalid. It was informed in the meeting that more than 8000 students of Islamia University Bahawalpur are benefiting from various scholarship schemes. In the second phase of the Prime Minister's PEEF Scholarship, it is hoped that more than 5,000 students of Islamia University Bahawalpur will get benefit. And this will be the largest number of scholarship recipients in all universities. The MORA Scholarship from the Federal Ministry of

Religious Affairs is being revived for Islamia University Bahawalpur after a long period and more than 100 students will receive scholarships. Similarly, the Islamia University of Bahawalpur received 200 scholarships from Pakistan Bait-ul-Mal for the first time. An agreement will soon be reached with Punjab Bait-ul-Mal for the provision of scholarships. The British Council has also increased Scottish Scholarships for IUB female students, bringing the number of

scholarships under the scheme from 6 to 98. The Vice Chancellor directed the Directorate of Financial Assistance to take steps to obtain scholarships from the Bahawalpur Chamber of Commerce and Industry and other industrial and welfare institutions. Efforts should also be made to provide maximum stipends to the children of journalists of Press Club and employees of Public Relations Department Bahawalpur.

Engineering Faculty Labs Equipped with State of the Art Machinery

Engr. Prof. Dr. Muhammad Amjad, Dean Faculty of Engineering Islamia University of Bahawalpur said that the latest machinery for testing and research at Engineering College has been received from Germany. This Equipment has been obtained on the directions

of Worthy Vice Chancellor Engr. Prof. Dr. Athar Mahboob so-that state-of-the-art research facilities are available for use in teaching and research in Punjab Province in particular. The lab is equipped with 10 long flume to demonstrate and study the main phenomena

of open-channel flow, sediment transport channel, visualization of seepage flow, advanced hydrologic investigations, Hydraulic Benches, fluid machinery etc. The Fluid Mechanics Laboratory at the Department of Civil Engineering of the Islamia University of Bahawalpur

has a purpose to offer the opportunity of hands-on work and demonstrations for teaching and research in the fields of Hydraulic Engineering and Fluid Mechanics. The equipment is procured from the German Principal-GUNT. The capital cost of equipment is about

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor along with Dean Engineering Faculty and Treasurer inaugurating newly installed lab equipment

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor visiting the laboratory

Rs. 65 million. The laboratory not only provides facilities for Civil Engineering students (BSc, MSc, PhD level and researchers) but also achieves potential requirement of Mechanical Engineering Program. Thus, the experiments in the Fluid Mechanics Laboratory provide an excellent opportunity for students to visualize and analyze the very same hydraulic phenomena they are studying in the classroom and will apply as practicing engineers. Engr.

Prof. Dr. Athar Mahboob (T.I.), Vice Chancellor, the Islamia University of Bahawalpur inaugurated the state-of-the-art laboratory in the Department of Civil Engineering, Faculty of Engineering. Vice Chancellor said that this laboratory is a great addition to the Faculty of Engineering. He said that Bachelor, Master and M.Phil and PhD students in Civil and Mechanical Engineering will benefit from these devices. The latest equipment for this laboratory

was imported from Germany. With the formation of laboratories, the engineering laboratories of Islamia University of Bahawalpur have been equipped with unique and modern machines of their kind all over the country. According to Prof. Dr. Muhammad Amjad, Dean, Faculty of Engineering, these equipment of worth Rs. 65 million contain practical training equipment for Hydraulic Engineering and Fluid Mechanics. Similarly, Flume, costing Rs. 10 million, will help students in research

on open channel flow, sediment transport, hydraulic and flow machinery. Dr. Akbar Malik, Head of Department of Civil Engineering, Dr. Shahab Ahmad Niazi, Chairman Electronics, Dr. Muhammad Ali Qureshi, Chairman Information and Telecommunication System, Dr. Muhammad Kashif, Chairman Computer System and faculty members of Civil Engineering Department and students were also present on the occasion.

Directorate of International Linkages sign MOU with International Institutions

The Islamia University has signed 5 MoUs with the International Academic Organizations and Universities. These include University of Technology Mara Malaysia, Chinese Academy of Sciences China, University Federal De Itajuba Brazil and Oxfam International UK. Director International Linkages IUB, Dr Abid Shahzad presented the MoUs to the Vice Chancellor Engr. Prof. Dr Athar Mahboob who appreciated the efforts of the directorate to uplift IUB at the International arena. Through newly signed MoUs, IUB will get benefits of

Dr. Abid Shahzad Director International Linkages IUB is presenting an MoU from Belarus State University to Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, the Islamia University of Bahawalpur joint research ventures in the fields of Agriculture, Science and Technology. The Director told that the Directorate of International

Linkages is jointly working with the Directorate of IT for establishing a database for all MoUs signed by IUB since 1975, the inception of the university. The Directorate is also going to organize seminars on International scholarships for IUB graduates to facilitate maximum research scholars to go abroad for higher studies. The Directorate is launching a website to update all activities such as existing MoUs, seminars, international scholarships, student exchange and faculty exchange programmes on the website.

Vice Chancellor Visits Indus Hospital Karachi

Prof. Dr. Athar Mahboob Vice, Chancellor, Islamia University of Bahawalpur visited Indus Hospital and Teaching Institute, Karachi. On this occasion, matters relevant to education in Medical Field and Allied Health Sciences were discussed with senior officials of Indus Hospital, Prof. Dr. Abdul Bari Khan, Chief Executive Officer, Hakim Shah, Principal, ICoNM and Dr. Naila Baig Ansari, Chair Indus Hospital and Research Center. The Vice Chancellor said that IUB is a leading University initiating new academic programs in emerging fields of Biotechnology, Pharmaceutical Sciences, Medical

Laboratory Technology, Physical Therapy, Human Diet and Nutrition, and Nursing. Both sides also discussed collaboration in teaching and research including joint research projects, faculty exchange, conferences and symposiums. Dr. Fazal Mehmood Khan, Director Health Education Project IUB was also present on the meeting.

Prof. Dr. Abdul Bari Khan Chief Executive Officer Indus Hospital Karachi presenting a souvenir to Prof. Dr. Athar Mahboob, Vice Chancellor, Islamia University of Bahawalpur

Sir Syed Ahmad Khan Seminar

Sir Syed Ahmad Khan with his foresight and understanding guided the Muslims of the subcontinent on the path of knowledge and progress. These views were expressed by Syed Mahmud Asadullah, Head, Sir Syed Education, Civilization and Ethics Foundation, Lahore, at

the Islamia University, Bahawalpur, to the participants of a function held in honor of Sir Syed Ahmad Khan. The ceremony was presided over by Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, the Islamia University of Bahawalpur. Malik Habibullah Bhutta was the

guest of honor on the occasion. Syed Mahmud Asadullah said that Islamia University Bahawalpur is a historical academic asset Under Vice Chancellor's leadership, Islamia University Bahawalpur is making rapid progress. Today's youth have to follow in the

footsteps of their forefathers and follow the great Islamic values. It is the duty of the universities to give full attention to the education of the students as well as character building. Hazrat Muhammad (Peace be upon him) is a shining example for us. Following his

Syed Mahmud Asadullah presenting a portrait of Sir Syed Ahmad Khan to Engr. Prof. Dr. Athar Mahboob

teachings, the Muslims achieved perfection in all sciences and arts. The establishment of the Muslim

League in 1906 was a decisive stage which gave political impetus to the political struggle of the Muslims

of the subcontinent in the form of the Pakistan. He said that through his foundation he was spreading the great intellectual legacy of Sir Syed Ahmad Khan to the people from village to village and city to city. The purpose of his life is to acquaint his people with the great and cultural heritage of the forefathers and to awaken their consciousness. He was very happy to know about the ongoing academic, literary and educational activities at Islamia University Bahawalpur and the dedication of the teachers and students here is commendable. Speaking on the occasion, Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, Islamia University, Bahawalpur, said that Sir Syed Ahmad Khan laid the

foundation of Muhammadan Anglo Society. Undoubtedly, Quaid-e-Azam Muhammad Ali Jinnah termed Aligarh as an arsenal of Muslims of the subcontinent struggled for a free state and made it possible. The Nawabs of Bahawalpur State followed the same principles and founded Jamia Islamia which is a beacon of education and civilization. The Vice Chancellor thanked Mr. Mahmud Asadullah for visiting Bahawalpur especially Jamia Islamia and for attending the seminar. Additional Commissioner, Mahar Khalid, distinguished citizens and media representatives were also present in large number on the occasion.

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor along with the participants of the event

Vice Chancellor Visits PNS Shifa

Engr. Prof. Dr. Athar Mahboob Vice Chancellor Islamia University of Bahawalpur visited the Pakistan Navy Station Shifa (PNS Shifa). On this occasion, Vice Chancellor exchanged views with Surge. Cdre. Abid Hussain Shah, Commandant PNS Shifa Hospital, Karachi. Both sides discussed various avenues of cooperation in the field of health and medical sciences including nursing and paramedics training. The Vice Chancellor also visited Pakistan Navy Medical Training

School and viewed teaching and training facilities besides having interaction with medical staff. Director IUB Health Education Project Dr. Fazal Mahmood Khan was also present during the visit. PNS Shifa is a medical hospital established in 1953. Pakistan Navy Nursing School was established in 1982 which produces female nursing cadets and trainee officers for Armed Forces Nursing Services.

IUB Observes Birth Anniversary of Quaid e Azam Muhammad Ali Jinnah

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, the Islamia University of Bahawalpur said that the achievement of a separate Muslim

state on the world map was possible only with the golden principles of faith, unity and discipline of Quaid-e-Azam Muhammad Ali Jinnah.

Quaid-e-Azam with his leadership skills and enthusiastic leadership brought the Muslims of India to an independent state which became

the destination of the Muslims of the subcontinent. He paid tribute to Quaid-e-Azam Muhammad Ali Jinnah who led the Muslims of South

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor along with senior faculty and dignitaries cutting the cake of Quaid e Azam's birth anniversary

Asia to a free and independent state. Pakistan is the fruit of the tireless efforts of Quaid-e-Azam Muhammad Ali Jinnah. The real responsibility for its protection lies with the young generation

who can use their talents to create a high position in the world of Pakistan. Certificates were also distributed among the students of the societies for participating in various co-curricular activities.

Certificates were also distributed to the participants of the workshop held under the auspices of the Federal Ministry of Education and Broadcasting. On this occasion, a cheque of Rs. 1 lac was given to

a special student Hassan Anees which was announced by Governor Punjab and Chancellor Chaudhry Muhammad Sarwar during the last convocation of the Islamia University of Bahawalpur.

IUB and Memon Medical Institute to Collaborate in Allied Health Sciences

Prof. Dr. Athar Mahboob, Vice Chancellor, Islamia University of Bahawalpur said that state of the art teaching, researches and training facilities are being setup in the University in the field of Medical and Allied Health Sciences. Due to rapid increase in population, the demand of health practitioners and medical care staff is increasing day by day in the country as well as globally. The Vice Chancellor expressed these views during his visit to Memon Medical Institute Hospital and Memon College of Nursing. The Vice Chancellor met with Brig. (R) Dr. Malik Waqar Ahmed Awan,

Chief Executive Officer Memon Medical Institute Hospital. He said that the Islamia University of Bahawalpur is one of the leading higher education institutions, currently expanding and including modern disciplines which have market demand and can produce quality human resource for local as well as international needs. He praised quality of education and infrastructure at Memon Medical Institute Hospital. Brig. (R) Dr. Malik Waqar Ahmed Awan said that MMIH is a 332-bed tertiary care hospital project and 100% donor funded project that aims to serve people regardless of their caste, creed,

These societies include Debating Society, Performing Arts, Qiraat and Naat, Media, Literary, Sports, Science, Environmental Protection, Fine Arts, Publication and Character-Building Society. These societies organized various events and competitions during the year and the students participated in them in large numbers, which honed their talents, highlighted their leadership skills and led them to national and international forums. Commissioner Bahawalpur highly appreciated the initiative of the Islamia University of Bahawalpur. It was informed on this occasion that the students of these societies organized the first International Level Bahawalpur

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor and Commissioner Bahawalpur Capt. (R) Zafar Iqbal of distributing certificates to students

Literary and Cultural Festival under the supervision of their advisors and co advisors and also the first trade fair in the history of Bahawalpur in collaboration with Tourism Development corporation Punjab and Bahawalpur Chamber of Commerce and Industry. It was held at Fort Derawar and for the first time the industrial products and handicrafts of Bahawalpur and the research product of the

university were presented to thousands of national and foreign tourists. They also participated in various programs and inter-university programs on the media channel and in various international competitions organized by the Department of Higher Education. On this occasion, Prof. Dr. Tanveer Hussain, Director Student Affairs and Chairman Student Societies said that the number of societies

has been increased to 17 on the direction of the Vice Chancellor, they will be selected after the successful completion and will include new students for next year. They will be trained on the lines on national ideology and they have fulfilled their responsibilities. Dr. Azhar Hussain Advisor Student Societies also addressed on the occasion.

High Density Fruit Orchard

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, the Islamia University of Bahawalpur inaugurated the high and ultrahigh density orchard of mangoes commercial cultivars of Chounsa, Dushari, Sindhari, Anwar ratool, Citrus Kinnow, Fruiter Grapefruit, Lemons and Date Palm). In high density orchard, there will be 700 to 800 plants per acre, while 1200 plants will be adjusted in ultrahigh density orchard. Between rows of plants soft fruits like strawberry will be planted for early income to the University. Fruits of these plants will be sold directly to national or international business firms to purchase the produce of this project. Production technology will be standardized according to the agro-climatic condition of this region. Students will be involved in R&D activities. Faculty of Department of Horticulture will be engaged in research activities through this project. In the second phase of this project Processing unit of fruit plants will be installed for value addition of the produce to address malnutrition and food security issues of the region.

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor and Dr. Moazzam Jameel, Registrar inaugurating fruits orchard

Training Session on Blended Learning

A training session on blended learning was conducted jointly by Quality Enhancement Cell, Directorate of IT and Directorate of Academics in various faculties, colleges and departments in Bahawalpur campuses as well as Bahawalnagar Campus of the Islamia University of Bahawalpur. Quality Enhancement Cell mainly conducted these training workshops for master trainer on blended learning. Master trainers will later conduct the same workshops for other faculty members. Prof. Dr Saeed Ahmad Buzdar, Director QEC conducted workshop on Blended

Learning and Flipped Classrooms, Moodle LMS and other related technologies. Other trainers highlighted the importance of transmission to blended learning and need of the time to culture the latest tools in classrooms and online teaching for more betterment in higher education. It is important to mention that Quality Enhancement Cell on direction of Engr. Prof. Dr. Athar Mahboob, Vice Chancellor is organizing these need based training workshops for the Faculty member amid the existing situations of COVID-19.

Participant of the training session on blended learning

First Farmer's Convention

Federal Minister for Food Security and Research Syed Fakhar Imam said that development of agriculture sector is one of the priorities of the present government and policy formulation is being formulated for this purpose. Which can play an important role in prosperity development of agricultural sector, increase in productivity, preparation of hybrid seeds is possible through research conducted in universities. Vice Chancellor Islamia University Bahawalpur Engr. Prof. Dr. Athar Mahboob, Vice Chancellor Agricultural University Multan Prof. Dr. Rao Asif Ali Khan, Mian Najeeb-ud-Din Owaisi, MNA, Secretary Agriculture South Punjab Saqib Ali Atil, Director Research Islamia University Bahawalpur were present on the occasion. Prof. Dr. Muhammad Iqbal, Sumaira Malik Member Syndicate, Heads of various agricultural research institutions, more than 300 farmers, researchers and students from four tehsils of Bahawalpur attended the convention. The Federal Minister said that it was a great pleasure to visit Jamia Islamia the Islamia University of Bahawalpur for the second time and to participate in the program organized for the farmers. 73 year history of agriculture has gone through various difficult stages of development. Self-sufficiency in food is still an important issue. Pakistan main challenge is to give farmers access to hybrid seeds, just as hybrid maize seeds have doubled yields. It is impotent to make sure that hybrid seeds, which only

the goal of self-sufficiency is still a long to go. We need a breakthrough in the field of agriculture through hybrid seeds and this breakthrough is possible with the hard work of scientists like Dr. Muhammad Iqbal Bandisha in university laboratories. He appreciated the efforts of Engr. Prof. Dr. Athar Mahboob Vice Chancellor in organizing

Punjab Mr. Saqib Ali Atil said that the Farmers Convention of Islamia University Bahawalpur is welcome for the development of South Punjab. All stakeholders will discuss agricultural issues together. He said that the three divisions of South Punjab, Multan, Dera Ghazi Khan and Bahawalpur have separate agricultural problems.

Tanveer Mehmood said that the government should encourage national and international agencies for the supply of quality seeds and hybrid seeds and ensure supply to the farmers. Director General Agriculture Extension Punjab Dr. Anjum Ali Buttar said that for procurement and self-sufficiency of 20 million tonnes of wheat, we

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor presenting a shield to Syed Fakhar Imam Federal Minister for Food Security and Research

the Farmers Convention. Vice Chancellor said that the purpose of the Farmers Convention is to bring policy makers, researchers, people associated with agro-industry and farmers on one platform so that joint efforts can be made for agricultural development. He thanked other dignitaries

For example, research has shown that mango orchards in Multan are declining due to depletion of ground-level pH. Efforts are being made to make agricultural officers and their offices accessible to ordinary farmers. Steps are being taken to provide bio-pesticides and efforts are being made to grow

have to face the weather conditions and support the farmer for good production. Nasrullah Khan Farm Management Fatima Fertilizers, Khalid Mehmood Khokhar, President Kisan Ittehad and Asif Majeed Chairman Evyol Group also addressed the gathering. Earlier, Prof. Dr. Muhammad Iqbal

Federal Minister for Food Security and Research Syed Fakhar Imam and other speakers addressing the Farmer's Convention

come from developed countries and multinational companies, are developed by agricultural research institutes themselves. The second major challenge for agriculture is the extraordinary climate and climate change. That is why the present government under the leadership of Prime Minister Imran Khan is focusing on growing trees and increasing the forest cover. The cotton crop, which reached 14 million bales in 1995 and is now in a dramatic decline. The total area under wheat is 22 million acres, but

for coming to the university and attending the convention. Prof. Dr. Rao Asif Ali Khan, Vice Chancellor, Agricultural University, Multan, said that training and prosperity of the farmers along modern lines is essential to achieve the goal of food security. In the current situation, Islamia University Bahawalpur deserves congratulations on holding the Farmers Convention. In addition to the agricultural problems of the farmers, attention to the solution of social problems is also essential. Secretary South

fruits through modern cultivation methods. Dr. Khalid Abdullah, Cotton Commissioner said that the agricultural area of cotton has been reduced from 3.2 million hectares to 2.4 million hectares. We strive to bring the mechanical masonry of cotton and the number of plants per acre from 18,000 to 50,000 plants and to meet the environmental challenges. for which Islamia University Bahawalpur is doing the best job. President Bahawalpur Chamber of Commerce and Industry Chaudhry

thanked the Federal Minister Syed Fakhar Imam, Vice Chancellors, senior officers and researchers for coming to Jamia Islamia and attending the Farmers Convention and said that this initiative brought all the stakeholders together. On the occasion of Kisan Convention, agricultural research institutes, pharmaceutical companies, departments of Agricultural Faculty also organized an exhibition where information on agricultural research was provided to the farmers.

The host of the function, Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, the Islamia University of Bahawalpur said that the message of Hazrat Khawaja Ghulam Farid (RA) was a source of guidance and a destination for the lost. This great spiritual

leader, while performing his duty of leading religion, civilization and culture, taught the people to love their land and nationality. His words were so influential that they spread beyond the borders of Waseb to the corners of the world. His poetry of one and a half hundred years ago is still ruling the hearts and there is an urgent need to spread the usefulness of this message all over the world through effective communication. The Vice Chancellor further said that through Khawaja Ghulam Farid Chair national and international conferences will be held on Fikr-e-Farid and the scope of research will be widened. Khawaja Moin-ud-Din Mehboob Koreja welcomed the holding of the seminar at Islamia

University Bahawalpur after 22 years and congratulated the Vice Chancellor, Islamia University Bahawalpur and faculty. Prof. Dr. Yousuf Khushk, Chairman National Academy of Letters, emphasized on spreading the universal message of Khawaja Ghulam Farid (RA) globally and multi-faceted research activities. Prof. Dr. Javed Hassan Chandio, Dean, Faculty of Arts and Languages and Director, Khawaja Farid Chair, said that under the Khawaja Farid Chair, literary and research activities would be promoted and works would be published. The event was attended by a large number of scholars, writers, researchers, media and civil society representatives from across the country.

Vice Chancellor in his address said that the University is working closely with the Press Club for the professional development of journalists. In this regard, a memorandum of understanding was signed between the two institutions which resulted in training workshops for journalists of Bahawalpur Division. Similarly, the university announced scholarships for the children of journalists. He thanked the

Members of Bahawalpur Press Club presenting lifetime membership to Engr. Prof. Dr. Athar Mahboob

President Press Club and members for the lifetime membership. Additional Commissioner Mehr Khalid Ahmed said that the role of Bahawalpur Press Club is very important in highlighting the problems of the society and he assured full cooperation from the management. In her address, Sumaira Malik appreciated the training programs and scholarships for journalists provided by the

Islamia University of Bahawalpur. She said that she was in touch with government circles for setting up a colony for journalists. President Press Club Bahawalpur Naseer Ahmad Nasir thanked the Vice Chancellor, Additional Commissioner and other guests. He said that during his tenure he had established exemplary relations with the Islamia University of Bahawalpur, Chamber of

Commerce and Industry and other stakeholders and promoted positive and professional journalism. Expansion and renovation of Press Club and full attention was also paid to development work. The establishment of Sadiq Library Corner is a perfect example in this regard. After the ceremony, the Vice Chancellor of Islamia University Bahawalpur inaugurated the Sadiq Library.

Secretary Agriculture visits IUB Agriculture Faculty

Secretary Agriculture, South Punjab, Saqib Ali Ateel visited the Department of Plant Breeding and Genetics, the Islamia University of Bahawalpur. Prof. Dr. Muhammad Iqbal, briefed about the research activities on cotton crop in the Department of Plant Breeding and Genetics as cotton is not just a crop but an industry in itself, ultimately sustaining the development of the country. He told that, we are emphasizing on bringing the genetic tolerance against white fly, pink boll worm, CLCV and salt effected soils. During presentation, he mentioned that soon IUB will get success in developing a CLCV and white fly tolerant variety within one year

A view of field trip by secretary Agriculture South Punjab

and demonstration trails will be conducted at farmer field next year. Secretary Agriculture Saqib Ali Ateel took keen observation along with his team in new cotton variety IUB-4 where white fly was managed without using chemicals. He observed and discussed about

lab facilities and research project carried out in Molecular Breeding lab of PBG and Microbiology lab of Soil science. Later on presentation was given on challenges on the revival of cotton in Punjab. During presentation it was discussed that federal department of

plant protection has to hunt the chemical for the control of white fly from multinational companies as white fly is damaging the cotton crop from last five years. During discussion it was proposed that entomological team Punjab should formulate strategy for white fly

management on the basis of their experiments. Secretary Agriculture highly appreciated that research activities of the department of PBG for revival of cotton in Punjab and suggested to collaborate with departments and other agricultural universities for achieving the goals.

QEC Training Session at Bahawalnagar Campus

trainer conducted workshop for IUB-Bahawalnagar Campus faculty members on “Blended Learning and Flipped Classrooms, Moodle LMS and other related technologies.

Acting, Director Campus, Dr. Rafaquat Ali highlighted the importance of transmission to Blended Learning and need of the time to culture the latest tools in

classrooms and online teaching for more betterment in higher education.

Multi Cropping Agricultural Techniques

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor along with Prof. Dr. Shazia Anjum and faculty members

The Cholistan Institute of Desert Studies, the Islamia University of Bahawalpur has successfully established multi-cropping system of “sesame (till) and jujube (Ber)” under drip and sprinkler irrigation method powered by solar energy in sandy alkaline soil. Dr. Muhammad Shahid Rizwan is working on project funded by the Higher Education Commission of Pakistan on diversifying the cropping system of Cholistan by integrating soil and water management practices. The Cholistan is a vast sandy desert spread over about 26,000 Square Kilometers. The sandy alkaline natured soil, harsh weather, heat and drought stress, underground saline water, and low organic matter are the main environmental

problems of Cholistan and limiting agricultural production in this region. Food security has a major issue due to continuous increase in population. During 2020, about 2.748 million tons edible oil of value Rs 321.535 billion was imported. While, our local production of edible oil during 2019-20 was estimated at 0.507 million tonnes. Total availability of edible oil from all sources is provisionally estimated at 3.255 million tonnes. There is a dire need to conserve sandy textural soils by adopting various socio-economical soil conservation techniques to get maximum income by cultivation of drought and salinity tolerant crops and plants species that will definitely contribute towards

improvement of living standard and income of Southern Punjab. Sesame is survivor crop with ability to drought-tolerant and disease

water saving techniques and irrigation management practices we can produce better oil seeds and agronomic crops with fruits culture to fulfill the country food demands that are less water demanding or able to withstand deficit irrigation with minimum impact on crops-plants yield and quality under desert environment. So, cultivation in barren desert lands may contribute to meet country’s requirement by reducing pressure on imports. Engr. Prof. Dr. Athar Mahboob, Vice Chancellor and Director Cholistan Institute of Desert Studies Prof. Dr. Shazia Anjum appreciated and encouraged the scientists for adaptation and launching of market based practical technology and briefly explained that such type of innovative projects and research

A view of solar system supported modern irrigation techniques

resistant and having ability to grow and provided high yield where most crops fails. Dr. Muhammad Shahid told that by utilizing innovative

activities facilitating the farmers of Southern Punjab.

IUB Students Win Bahawalpur Triathlon Competition

Art Display on Kashmir Black Day

Faculty and students of the Islamia University of Bahawalpur observed Kashmir Black Day expressing solidarity with suppressed people of Kashmir who are struggling for their freedom since many decades. On direction of Engr. Prof. Dr. Athar Mahboob, Vice Chancellor seminars were held in the university campuses

where speakers highlighted the Kashmiri Freedom Movement and condemned brutal occupation of Indian forces. On 27th October 1947, Indian forces landed illegally in Kashmir and occupied the valley against the will of Kashmiri people and this day is marked as black day by Kashmiris living in all parts of

the world. Pakistan has always supported struggle of Kashmiri people and raised voice for their right of plebiscite at every forum including United Nations. Faculty and students of College of Art and Design organized art display at Hakra Art Gallery to highlight Kashmiri freedom movement and

violation of human rights in the valley. The artists in impressive manner displayed struggle and sacrifice of Kashmiri people through various mediums of art including painting, sculpture, calligraphy and miniature.

Students awarded honorary shields and certificates were also distributed among all the participating students.

Webinar on Breast Cancer

Breast cancer is a leading female cancer in the world resulting in about 500,000 deaths each year and is also common cancer of Pakistan. It is 100% curable if detected at early stage. There is a need to educate females especially of the younger age group for early detection and thus avoid complication of late

detection. This was highlighted during a cancer awareness webinar organized by the Islamia University of Bahawalpur in World Health Organization and Bahawalpur Institute of Nuclear Oncology (BINO). The speakers included Dr. Iftikhar Alam, Director BINO, Dr. Mufakir Mian, Divisional Head WHO, Prof. Dr. Raheela Khalid

Qureshi, Dr. Badar Masood, Dr. Robina Ali and Dr. Safeena Sheikh whereas Ms. Fatima Muzahir, Deputy PRO was the moderator. They said that breast cancer is the most common cancer in women around the world. Unfortunately, Pakistan has the highest incidence of breast cancer in Asia. Due to the lack of awareness of breast cancer

in Pakistan this treatable disease is usually detected at advanced stage when nothing can turn the course of disease. We cannot rely or wait for others to take up this issue seriously and hoped that students will join to educate women on how they can reduce their risk of developing breast cancer.

Online Session on Associate Degree Programme

Engr. Prof. Dr. Athar Mahboob, Vice Chancellor, the Islamia University of Bahawalpur said that there is a dire need to train our students to cope up with the future challenges of globalized world. He was addressing the Online Orientation Session organized for the Principals of affiliated colleges regarding Associate Degree Program. He further stated that Pakistan is considered to be the 5th largest country of the world, having around 63% population comprising youth aged between 15-33, of which only 6% population was university graduate. HEC has planning to increase this ratio upto 20% by 2025. It is best time to avail this opportunity to educate and train our students according to needs of the hour. Associate Degree

Webinar on Literature and Pandemic

Department of English Literature, the Islamia University of Bahawalpur organized a webinar on Literature and Pandemics: Lessons from the Past and Cultural Disposition during COVID-19, to reflect upon the situation of pandemic, as literature gives a more intimate view to understand the ways in which past epidemics allow modern readers to deliberate on the fear of death and disease. The program began with a recitation from the Holy Quran, followed by the formal introduction of the speakers and the webinar's raison d'être. The webinar was online chaired by the Honourable Vice Chancellor Engr. Prof. Dr. Athar Mahboob (T.I.) Through a video clip, the panelists and the attendees from around the world, were introduced

to the Islamia University and the history of Bahawalpur. The Chairman Department of English Literature, Prof. Dr. Muhammad Ayub Jajja welcomed the guests and voiced the vitality and eminence of literature in being the true reflective of life for thousands of years, as it captures the instances of grief, hopelessness and at the same time of courage and persistence. Prof. Dr. Jajja in his address also thanked the Vice Chancellor for his constant support towards the department. Literary Scholars from United States, United Kingdom and Pakistan contributed in analyzing what literature teaches us about the effect of these deadly manifestations on humanity, and the way they shape what it means to be human. Prof. Dr. Amardeep

Singh, from Lehigh University, Pennsylvania, USA discussed Mary Shelley's Last Man, a novel about the experience of loss and the psychic cost of isolation. While building a connection between the COVID-19, he probed on the novel, The Scarlet Plague, as it centers the spread of the Red Death, an uncontrollable epidemic that depopulated and nearly destroyed the world. Even though it was published more than a century ago, that The Scarlet Plague feels contemporary, particularly, in the lead character Jack London's opinion, who believes that capitalism led to the rise in population and to overcrowding, and overcrowding led to plague. Consequently, capitalism is presented as the ultimate cause

of the pandemic and thus blamed. Another work that he discussed was Mandel's Station Eleven, starting with roughly the same apocalyptic plague plot as The Scarlet Plague. However, the substantiality lies in the fact that art and creativity remain important to the survivors. Dr. Beci Carver gave a talk on Lockdown Modernism - Foster, Mansfield & Woolf, she briefed on the life in quarantine with her focus on the Lighthouse in Woolf and Mansfield, the talk discussed the way in which quarantine has impacted the individual and societal growth all around the globe, her approach towards the 'quarantine island' mentioned in the Mansfield's work, Prelude, a liminal space cut off from the mainland while still belonging

to it became an ideal place to quarantine European travelers who intended to settle in New Zealand and contracted diseases along the way, the layout of which was designed in a way to minimize the spread of infection, all this paints a bleak picture of lockdown, she deliberated that these texts written in the 20th century becomes a reflective of our present situation. Madam Moni Mohsin, a British-Pakistani novelist engaged in an interactive conversation with Ms. Raheen Fatimah Khan, Lecturer, Department of English Literature and moderator of the webinar to emphasize on the consolatory role of literature. She pointed that humans are the stories they tell, and in a time of a pandemic, these

Participants of Webinar on Literature and Pandemic

stories show how human race has survived through the crisis and it is the smaller things, that assist the cycle of life to run smoothly and ultimately to build a brighter

tomorrow. The webinar focal person, and Chairman Department of English Literature, Prof. Dr. Muhammad Ayub Jajja culminated the session by highlighting the

prodigious outcome of the webinar with his enlightening remarks, and on behalf of the Vice Chancellor, thanked esteemed speakers, dignitaries and attendees from Pakistani universities and abroad who virtually participated the webinar, and distributed certificates among the students that participated onsite. Vice Chancellor of the Islamia University of Bahawalpur, Engr. Prof. Dr. Athar Mahboob appreciated the Department's effort in arranging an international event that addresses the predicaments of age in which we live and the struggles to remake a world whose essential unity has been underscored by one of the greatest pandemics in human history.

CIDS Weather Station

Cholistan Institute of Desert Studies, the Islamia University of Bahawalpur installed a weather station in the experimental area to provide research facilities. A weather station is a facility with instruments and equipment's for measuring atmospheric conditions to provide information for weather forecasts and to study the weather and climate. This instrument has been imported from USA, engineered to handle the harshest environments and deliver data with scientific precision, year after year with a wide range of options and sensors. The measurements taken include temperature, dew, wind speed & direction, Barometric pressure, moon phase, UV & Solar radiation, rainfall & its rate

and many more factors. These weather stations help to take the precautionary measures against the destructive rains, winds, severe high or low temperature. The use of weather stations helps to cope with the frost and high temperature in summer. Director Cholistan Institute of Desert Studies Prof. Dr. Shazia Anjum told that Prof Dr Athar Mahboob Vice Chancellor is patronizing research activities and with availability of this weather system now it is a great opportunity and facility for faculty members, researchers, and students for measuring atmospheric conditions to provide information for weather forecasts and to study the weather and climate.

Vice Chancellor Engr. Prof. Dr. Athar Mahboob was the chief guest at a special Christmas function held at Islamia University Bahawalpur. He cut a Christmas cake with faculty members, students and Christian

community in the Abbasia Campus. He said that today is a happy day for Christian brothers and sisters and all the teachers and students of Islamia University of Bahawalpur are sharing their festivities.
